

## EBC-3300

Embedded Chassis for IEI thin Mini-ITX SBC

## Features

- » Designs for thin type Mini-ITX SBC with single voltage input
- » Total height 42mm for space critical application
- » One 2.5" hard drive capacity
- » Flexible E-Window tool kit support

## Specifications

|                          |                                 |
|--------------------------|---------------------------------|
| Form factor              |                                 |
| SBC Form Factor          | Refer to SBC                    |
| I/O Interface            |                                 |
| I/O Ports                | 2 x USB3.0                      |
|                          | 2 x LAN                         |
|                          | Refer to SBC                    |
| Expansion Slots          |                                 |
| Expansion Slots          | 2 slot                          |
| System                   |                                 |
| Drive Bays               | 1 x 3.5" (front accessible/HDD) |
| Indicator&Buttons        |                                 |
| Buttons                  | Power switch                    |
| Indicators               | Power, HDD                      |
| Physical Characteristics |                                 |
| Construction             | Heavy duty metal                |
| Color                    |                                 |
| Color                    | Black                           |
| Dimensions               |                                 |
| Dimensions               | 190 x 190 x 43                  |
| Weight                   |                                 |
| Weight                   | 1 kg/ 2kg                       |
| Environment              |                                 |
| Operating Temperature    | -10°C ~ 50°C                    |
| Humidity                 | 10% ~ 95%, non-condensing       |

## Ordering Information

|                   |                                                                                                                               |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------|
| EBC-3300-ULT3-R10 | Embedded chassis for tKINO-ULT3 with one 2.5" SATA hard drive bay, IO bracket, one LED cable, one power switch cable and RoHS |
| EBC-3300-BW-R10   | Embedded chassis for tKINO-BW with one 2.5" SATA hard drive bay, IO bracket, one LED cable, one power switch cable and RoHS   |
| EBC-3300-AL-R10   | Embedded chassis for tKINO-AL with one 2.5" SATA hard drive bay, IO bracket, one LED cable, one power switch cable and RoHS   |

|                                      |                            |
|--------------------------------------|----------------------------|
