IEI FLEX AIoT Developer Kit Quick Start Guide

intel | IoT Solutions Alliance

FLE✈

1 *Connect your system using Ethernet or Wi-Fi*

The FLEX system is equipped with Ethernet and Wi-Fi capabilities.

Connect using Ethernet

Plug the Ethernet cable into your system, and then plug the other end of the cable into the router.
OR

Connect using Wi-Fi

To install the Wi-Fi antenna, screw each antenna onto the gold knobs on the back of the FLEX system. To begin using the internet, connect to your wireless network and select the desired SSID.

2 *Connect the HDMI or DisplayPort devices*

Plug in the HDMI connector in the right direction as shown below.

HDMI

3 *Plug in all cords*

Keyboard   Mouse

4 *Turn on*

Until the LED lights up in blue ⏻

Turn on

5 *Log in*

Log in with the default user name and password.

Username: devkit

Password: devkit
