

## ECA-310

## MicroATX Motherboard Tower Industrial Chassis

## Features

- » Compatible with microATX form factor motherboards
- » One 3.5" and one 2.5" HDD/SSD bay
- » Two USB ports on the front panel
- » Support Ultra slim DVD
- » Four expansion slots
- » RoHS compliant design

## Specifications

|                             |                                                    |
|-----------------------------|----------------------------------------------------|
| Form factor                 |                                                    |
| SBC Form Factor             | MicroATX Motherboard                               |
| I/O Interface               |                                                    |
| I/O Ports                   | 2 x USB (Front Panel)                              |
|                             | 6 x DB9 (Reserved)                                 |
| Expansion Slots             |                                                    |
| Expansion Slots             | 4 slots                                            |
| System                      |                                                    |
| Cooling method / System Fan | 1 x 80mm                                           |
| Drive Bays                  | 1 x 3.5" HDD bay                                   |
|                             | 1 x 2.5" HDD bay                                   |
|                             | 1 x Ultra slim DVD bay                             |
| Indicator&Buttons           |                                                    |
| Buttons                     | Power switch, reset button                         |
| Indicators                  | Power, HDD                                         |
| Physical Characteristics    |                                                    |
| Construction                | Heavy duty metal                                   |
| Color                       |                                                    |
| Color                       | Silver                                             |
| Dimensions                  |                                                    |
| Dimensions                  | 157mm x 337.5mm x 341mm                            |
| Environment                 |                                                    |
| Operating Temperature       | -10°C ~ 50°C                                       |
| Humidity                    | 10% ~ 90%                                          |
| Operating Vibration         | Half-sine wave 3G, 11ms, 100 shocks per axis (SSD) |
| Operating Shock             | MIL-STD-810F 514.5C-1 (SSD)                        |
| Safety & EMC                | CE/FCC compliant                                   |

## Ordering Information

|             |                                                                                                                         |
|-------------|-------------------------------------------------------------------------------------------------------------------------|
| ECA-310-R10 | Desktop/Wallmount chassis, supports microATX motherboard, one 3.5" HDD/2.5" SSD bay, supports 1U ATX power supply, RoHS |
|-------------|-------------------------------------------------------------------------------------------------------------------------|

## Packing List

|                                   |                    |
|-----------------------------------|--------------------|
| 1 x Mounting Bracket (Wall Mount) | 1 x Mounting Screw |
| 1 x Power Cord                    |                    |
