WS-855GS

15" IP 64 Waterproof Workstation: Robust, Shock Resistance

Features

- » Die-cast aluminum front panel with integrated LCD screen
- $\ensuremath{\text{\tiny N}}$ New robust chassis and retention kit structure for shock and vibration
- » Front panel, membrane keys, mouse pad and drive-bay enclosure meet IP 64 standard for tough environment
- » Full function membrane keys and submerged OSD controller
- » Advanced thermal and air-flow design
- » Analog VGA interface supports all CPU boards

Dimensions		
Dimensions	483 x 353 x 261	
Environment		
Humidity	10%~95%, non-condensing	
Operating Temperature	0°C ~ 50°C	
Storage Temperature	-10°C ~ 60°C	
Function Key		
Function Key	10 Keys	
KeyPad		
KeyPad	59 Keys	
LCD		
Backlight MTBF	70000 (LED Backlight)	
Brightness (cd/m2)	450	
Contrast Ratio	800:1	
LCD Color	16.2M	
Resolution	1024 x 768	
Size	15″	
Touch		
Touch Screen	5-wire resistive touch screen	
Weight		
Weight	12 kg / 18.2 kg	

Ordering Information

8U m-ATX 15" 450cd/m² XGA LCD workstation with ACE-A130B-R10 300W ATX with PFC power supply and 15" resistive touch screen, M-ATX version,RoHS, R40
8U 15" 450cd/m² XGA LCD 10-slot industrial workstation with ACE-A130B-R10 300W ATX with PFC power supply and 15" resistive touch screen, RoHS, R40

Specifications

Pattring lebst	1 x VGA Cable
1 x PS_ON Cable for ATX signal	4 x Press Stick Kit (Long)
3 x Press Stick Kit (Short)	7 x Press Stick Rubber
1 x User Manual	1 x KeyPad / MousePad PS/2 Cable (For SBC Models)
1 x KeyPad / MousePad PS/2 Cable (For m-ATX (Motherboards) Models	1 x RS-232 Cable / Touch Pen for Touch Screen
