

## AUPS2-A20

## Gen2 Intelligent DC UPS Module

## Features

- » 50W (4.17A@12V) output
- » 28Wh for more than 60 minutes operation time (depending on panel PC power requirements)
- » Rugged metal enclosure for Din-rail, standard VESA 75 and Wall mounting
- » Web-based, remote network management, no software installation required
- » Local PC-based monitoring software for input detection and battery status monitoring
- » Auto shut down when battery low
- » Remote DC output on/off switch for external switch installation
- » Provides stable power to the PC during line sags and spikes and absorbs power surges and transients, protecting expensive equipment

## Specifications

| Environment           |                          |
|-----------------------|--------------------------|
| Operating Temperature | 0°C ~ 40°C               |
| Storage Temperature   | -20°C ~ 50°C             |
| Input                 |                          |
| Voltage               | 12-24V DC                |
| Output                |                          |
| Voltage               | 12V DC                   |
| General               |                          |
| Watt                  | 50W                      |
| Dimensions            | 151.7 x 101.35 x 29.2    |
| Output Connector      | 1 x DC JACK (Input)      |
|                       | 1 x DC JACK (Output)     |
|                       | 1 x 2 Pin Terminal block |
|                       | 1 x RJ45                 |
|                       | 1 x USB2.0 Type-A        |
| Weight                |                          |
| Weight                | 0.75/1.2 kg              |

## Ordering Information

|               |                                                                                      |
|---------------|--------------------------------------------------------------------------------------|
| AUPS2-A20-R10 | VESA 75, DC 12~14V input 60W UPS module with 7.26V;5600mAH, 2S2P Li-Ion battery, R10 |
